The Jet Propulsion Laboratory ("JPL"), an operating division of the California Institute of Technology ("Caltech"), grants Carnegie Mellon University ("Licensee") a license to a source and executable version of State Chart Autocoder, NPO number 41951 ("Software"). The Software is available to Licensee subject to the following terms:

1. Caltech agrees to grant a nonexclusive, non-transferable, royalty-free license to Licensee, and Licensee agrees to utilize the Software for purposes internal to the Licensee's Institute for Software Research ("Department") only. The Department plans to use the Software solely to research the use of Software tools by investigating uses in different environments in support of Department's Master of Software Engineering Studio Project. The Software will be installed on a Department computer system and will only be used by Licensee's authorized Department faculty, staff or students. No other usage is authorized under this license.
2. Licensee agrees not to distribute the Software to any person external to the Licensee without the prior written permission of Caltech. Licensee has no rights to sublicense Software.
3. The Software is experimental in nature and is being licensed "as is". The license of the Software does not include any technical or other type of support.
4. None of the Software provided may be used in commercial products or services directly or indirectly, or used to obtain government contracts for products or services, unless a license granting the right to use the Software in such a commercial manner is executed between Caltech and Licensee. Licensee agrees that it will not license, distribute, or sell the Software or any other software, information or data that incorporate any part of the Software, including derivative works thereof ("Derivatives"), to any other parties.
5. Caltech will consider all requests for a commercial license, but shall be under no obligation to grant such license.
6. Licensee agrees to grant Caltech a nonexclusive, non-transferable, royalty-free license to any other software, information or data that incorporate any part of the Software, including Derivatives for the purpose of research internal to Caltech, as well as any purpose for or on behalf of the United States Government.
7. Licensee agrees that any person within the Licensee utilizing the Software will be advised of, and is subject to, the conditions in the Agreement.
8. NO WARRANTY, DISCLAIMER, INDEMNITY:

THE SOFTWARE AND/OR RELATED MATERIALS ARE PROVIDED "AS-IS" WITHOUT WARRANTY OF ANY KIND INCLUDING ANY WARRANTIES OF PERFORMANCE OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE (AS SET FORTH IN UCC 2312-2313) OR FOR ANY PURPOSE WHATSOEVER, FOR THE LICENSED PRODUCT, HOWEVER USED.

IN NO EVENT SHALL CALTECH/JPL BE LIABLE FOR ANY DAMAGES AND/OR COSTS, INCLUDING BUT NOT LIMITED TO INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, INCLUDING ECONOMIC DAMAGE OR INJURY TO PROPERTY AND LOST PROFITS, REGARDLESS OF WHETHER CALTECH/JPL SHALL BE ADVISED, HAVE REASON TO KNOW, OR IN FACT SHALL KNOW OF THE POSSIBILITY.

LICENSEE BEARS ALL RISK RELATING TO QUALITY AND PERFORMANCE OF THE SOFTWARE AND/OR RELATED MATERIALS, AND AGREES TO INDEMNIFY CALTECH FOR ALL THIRD-PARTY CLAIMS RESULTING FROM THE ACTIONS OF LICENSEE IN THE USE OF THE SOFTWARE.

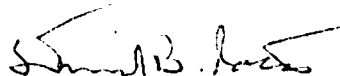

9. The Agreement covers the use described in paragraph 1 above. All other uses of the Software by the Licensee must be approved in writing in advance by Caltech.

10. All right, title, and interest in and to all data, information, and inventions that result from use of the Software by the Licensee shall vest in and belong to the Licensee. Licensee agrees to provide Caltech with copies of publications that reference the Software, and to acknowledge Caltech in those publications.
11. This Agreement will be governed by the laws of the State of California, and any action brought hereunder shall be within the state of California.
12. This Agreement will expire on December 10, 2010. Upon expiration, the Licensee will return the Software or will certify destruction of the Software.
13. The Licensee shall comply with all applicable U. S. export control laws and regulations (22 C.F.R. 120-130 and 15 C.F.R. 730-774). To the extent that the software is subject to U.S. export control laws and regulations, the Licensee has the responsibility to obtain export licenses or other export authority as may be required before exporting such information to foreign countries or providing access to foreign persons.
